

Saratoga Galvanizing Happy Color Technical Data Sheet

Saratoga Galvanizing Happy Color is the varnish for cold galvanize. Using this product, you can avoid to submerge the object to treat in molten bath. It creates a metal covering highly resistant to corrosion caused by the most polluting atmospheric agents, by water and sea salt. The product has firm adhesion and is long lasting.

APPLICATION FIELDS

Saratoga Galvanizing Happy Color is indicated for railings, barred windows, rolling shutters, garage, roll up shutters, welded joints, pumps, pipes, carpentry works, tanks of chemical systems and pylons. Can be varnished with every kind of varnish.

APPLICATION

- All surfaces must be dust free, clean, dry and degreased.
- Shake can for a long time, until hearing for a minute the sound of the marbles inside the can.
- Keeping the can 30 cm from the surface to treat, apply with slight coats. For a better result, cross horizontal coats with vertical ones.
- With self-cleaning valve: when finished, clean the valve turning around the can and pressing till comes out only the gas from the can, without any varnish.

Clean varnish with Acetone and/or Nitro Diluent.

Specific data		
Appearance		Can containing under pressure liquid
Density at 20°C	g/ml	0,75-0,8
Brightness-Gloss degree	Gloss	55
Temperature resistance	°C	120
Coats needed:		1 in internals 2-3 in externals
Skin formation time	minutes	10
Tack free	minutes	20
Fully dry	hours	24
