

Saratoga 7x7 Serramenti – Door and Window Frames Silicone

Saratoga 7x7 Serramenti – Door and Window Frames Silicone is a neutral one-component silicone sealant, that reticulates thanks to the contact with the air humidity.

APPLICATION FIELDS

Suitable for sealing between glasses and door and window frames, and between door and window frames and walls. It is used for sealings on door and window frames, and on anodized aluminium, pre-varnished metal, wood and hard PVC too. Suitable also to carry out polycarbonate manufactures, such as greenhouses, fenestrations, skylights, pluggings and coverings.

APPLICATION

- All surfaces must be compact, clean, dry, dust free and degreased.
 - Apply at the bottom of the gap some insulation material; with deep gaps, fill with Saratoga Joint-Filler or expanded plastic material.
 - It is recommended to apply a masking tape on both sides of the joint for a better result (remove right after application).
 - Cut the nozzle at the desired diameter.
 - Apply using a standard sealant gun or a compressed air one.
- Clean within 10 minutes with Saratoga Via•Sil Fresco or a clean cloth wetted with solvent. When cured, clean with Via•Sil Indurito.
Cannot be painted, therefore, paint before applying.

Specific data		
Consistency	g/l	Thixotropic, does not drip
Kind of sealant		1 ± 0,02
Specific weight		1,015
Working time*	minutes	10
Cure time*	mm/day	2-3
Application temperature	°C	from +5 to +40
Temperature resistance	°C	from -40 to +150
Shore A hardness	°	23
Working movement	%	max 25
Elongation at break (according to ISO 37)	%	400

*At 23°C and 50% Relative Humidity

STORAGE AND SHELF LIFE

In unopened original packaging, between +20 and +25°C its shelf life is 12 months since manufacturing date.

CAUTIONS

Keep out of the reach of children.

Consult Material Safety Data Sheet for full list of hazards and the directions on the product label itself.
