

## Saratoga Top Tak

Saratoga Top Tak is an isobutene mixture based sticky trap.

### APPLICATION FIELDS

Sticky trap with lure to attract and stop rats and big mice. Thanks to the highly sticky viscous glue, it blocks rats and big mice without allowing them to move. With high tenacity and high attractiveness, it is a highly effective product.

Thanks to its special pre-smeared plastic tray, it is ideal for an easy clean use, in fact it does not drip nor dirty.

### APPLICATION

- Open the cardboard case, open the plastic package inside, separate the 2 plastic trays, taking care not to touch the inside.
- Place the 2 individual trays in 2 different points near the wall, in places where mice and rats pass or (if visible) near their burrows.
- Replace the trays when necessary.

The glue is viscous and very sticky: avoid touching it to not get dirty, if this happens, it can be easily removed with a cloth soaked with oil, alcohol or petrol.

Specific data	
Tray material	Plastic
Tray colour	White
Glue colour	Transparent

### STORAGE AND SHELF LIFE

In unopened original packaging, stored at room temperature.
