

Saratoga Smalto Bianco

Saratoga Smalto bianco is an acrylic enamel for the retouching of glazed and porcelain surfaces

APPLICATION FIELDS

It is used to touch up chips, scratches, peeling on appliances, cabinets, sinks, bathtubs, caravans.
It dries quickly and does not turn yellow over time.

APPLICATION

- Use on clean, dry, degreased surfaces (remove any loose enamel parts).
- Insert the supplied brush into the appropriate hole in the cap of the tube (after use strongly screw the cap on the tube, keeping the brush inserted).
- On vertical surfaces, spread Smalto Bianco starting from the top to avoid cumming.
- In case of chipping or deep scrounging, apply the product in several layers with intervals of at least 15 minutes between one application and the other.

Clean it with acetone.
