

Saratoga Happy Color Rust Preventer

Saratoga Happy Color Rust Preventer Undercoating is suitable for protection against corrosion and for preparing all metals for varnishing, including alloys. Can be over painted with any kind of varnish and, thanks to the use of acrylic resins, ensures high of average adhesion and long-lasting features.

APPLICATION

- All surfaces must be clean and smooth.
- Apply a masking tape on the parts that won't be treated.
- Shake can until hearing for a minute the sound of the marbles inside the can.
- Keeping the can 30 cm from the surface to treat, apply with slight coats.
- For a better result, cross horizontal coats with vertical ones.
- With self-cleaning valve.
- Before over paint with an enamel, sand the part to treat with sandpaper n° 400.

Clean varnish with Acetone and/or Nitro Diluent.

Specific data		
Appearance		Can containing liquid under pressure
Density at 20°C	g/ml	0,75-0,8
Yield	mq	1,5-2
