

Saratoga Bitumì Guaina Liquida

Saratoga Bitumì Liquid Sheath is the quick one-component synthetic rubber-based quick finish, ideal for waterproofing, protecting and repairing.

APPLICATION FIELDS

It's suitable for both indoor and outdoor applications, it is particularly suitable for waterproofing: showers and bathrooms, joints between different sheaths, flooring and walls, under-tile in wet rooms, cracks in roof transitions and penetrations, window frames and skylight joints. It is also ideal for repairs of: edges of sheaths that detach, gutters, corrugated sheets and for insulation of air and water joints. Suitable for: roofing, fiber cement slabs, low footfall terraces, roof tiles, tiles, pipes, chimney pots, skylights, flashings, drains, pots. Ideal for all surfaces, it's particularly suitable on: screed, concrete, bitumen, metal sheets, aluminum, steel and woods. Totally impermeable to air and water, it is self-levelling and elastic, protects against corrosion and erosion, is plasticiser-free, VOC-free, solvent-free and odourless. Also suitable for flat surfaces, without slope.

Ready to use, it is easy to apply with a brush, does not shrink and it's overpaintable. It covers and protects surfaces without affecting them. It can be applied starting from 0°C.

APPLICATION

- Make sure that the surfaces to be treated are clean, dry and degreased. Sand if necessary.
- For application on very porous surfaces, prime with Saratoga Mix1000 in a ratio of 1:1 (1 part of water to 1 part of Mix1000).
- Mix with a spatula before use, until uniformly colored.
- Apply evenly with a brush (you can also apply by roller if necessary) at least 2 coats of about 0.5 mm each, waiting about 1 hour (skin time) between the two applications.
- One completely dry (about 12 hours), make sure you have applied a total thickness of at least 1 mm.
- Consider at least doubled timelines in case of application in cold weather.

Cleaning: immediate with water, when cured remove with a razor blade.

Yield: a jar is indicated for about 1 m².

STORAGE AND SHELF LIFE

In unopened original packaging, between +20°C and +25°C.
