

Saratoga Foam Cleaner

Saratoga Foam Cleaner is the particular additives in solvent based cleaner, specific for polyurethane foams.

APPLICATION FIELDS

Polyurethane foam cleaner, dissolves fresh polyurethane foam. Ideal for cleaning extrusion guns right after usage, can be used also to clean other surfaces from still fresh foam. Dries quickly, leaving no residues.

The can is provided with adapter that allows to tighten it to metal gun, used for applying polyurethane foams.

The little button, set on the adapter, allows to use Foam Cleaner even without a gun, to clean all traces of fresh foam.

The can has the "All Positions" valve, that allows to use can in all positions, permitting to work easily in vertical, horizontal, or with can upside down.

APPLICATION AND INSTRUCTIONS

- With the specific adapter, tighten strongly the can of Saratoga Foam Cleaner to the gun collar.
- Slowly activate the gun to remove fresh foam remains from the gun itself.
- Let Saratoga Foam Cleaner act within the gun for about 1-2 minutes, finally let it come out and collect it in a suitable container (absorbing cloth, cardboard and the like).
- If necessary repeat the procedure 2-3 times, until a clean liquid comes out.
- The little button, set on the adapter, allows to use Saratoga Foam Cleaner even without a gun, to clean all traces of fresh foam.

Specific data	
Colour	Colourless
Smell	Typical of solvent
Consistency	Liquid
Density at 20°C	850 kg/m ³

STORAGE AND SHELF LIFE

Between 20 and 25°C its shelf life is 24 months since manufacturing date.

CAUTIONS

Keep out of the reach of children.

Consult Material Safety Data Sheet for full list of hazards and the directions on the product label itself.
