

Saratoga Top Fix

Saratoga Top Fix is the non-poisonous glue for killing rats effective also against beetles, ants and lizards. Odourless, colourless, does not fear water nor damp; fast and easy to apply.

Saratoga Top Fix does not drip and reaches its particular characteristic of permanent stickiness about half an hour after the application.

APPLICATION FIELDS

Saratoga Top Fix smeared on tablets, strips of paper and various supports, is used for catching mice, harmful animals and insects. Moreover it is particularly useful for use in domestic premises for stopping the entrance of ants, beetles, lizards, etc.

In agricultural use, if smeared in a ring round plants, it stops insects from climbing up them.

APPLICATION

- Smear a few millimeters of product on a support (for example wooden, plastic, cardboard tablets or other non-absorbent material).
- Leave the support in the places most frequented by rodents.
- Any soiling can be cleaned with vegetable oil or suitable solvent.
